Profile

Product-driven **Full-Stack Developer** and **Team Lead** with over 3 years of experience building scalable mobile and web ecosystems. Expert in **Flutter, React Native, and Python (FastAPI)**, with a proven track record of translating complex business requirements into high-performance digital products. Experienced in leading cross-functional teams, executing product roadmaps, and optimizing CI/CD pipelines for 2026-standard Agile delivery.

Education

Bachelor of Engineering: Informatics Engineering present | Damascus, Syria
Al Sham Private University
5th year ITE

American Highschool Diploma 05/2018 | Riyadh, Saudi Arabia
Future Window International School

Professional Experience

Frontend & Flutter Developer 04/2026 – Present | Damascus
Sama Tech
building website based on client needs

Full-Stack Developer (Promoted) 08/2025 – 08/2026 | Bangalore, India
Paws Pal Connect | Bangalore, India 🌐

- Transitioned from **Team Lead** to **Full-Stack Developer** to oversee end-to-end development of pet-tech solutions.
- Architecting scalable backends using **FastAPI** to support cross-platform mobile and web applications.
- Integrating **Next.js** and **React** frontends with robust internal APIs for real-time data synchronization.
- Maintaining product vision and strategy while leading technical execution and sprint planning.
- Collaborated with design, backend, and marketing teams to ensure consistent UX and on-time releases.
- Drove adoption of **Material 3 UI, performance best practices, and scalable architecture** across the app.

Associate Software Engineer (Flutter TeamLeader) 09/2025 – 08/2026 | Bangalore
Paws Pal Connect 🌐

Paws Pal Connect is a modern, cross-platform mobile app built with **Flutter**, designed to deliver a smooth, reliable, and beautiful experience on both iOS and Android.

Key Features

- Fast & responsive performance
- Intuitive and user-friendly design
- Secure & scalable architecture
- Available on multiple platforms with one seamless codebase

Whether you're managing tasks, tracking goals, or connecting with others, Paws Pal Connect is built to simplify your daily life with technology that just works.

Our app is powered by **Flutter & Dart**, ensuring consistent updates, native-like performance, and a delightful user experience.

Frontend Web Developer Intern 09/2025 – Present | Damascus, Syria
Vica Web Solutions | Damascus, Syria 🌐

- Built responsive and interactive web applications using **React, TypeScript, and Tailwind CSS**.

- Collaborated with designers and backend engineers to enhance UX and performance.
- Applied best practices in version control, API integration, and component reuse.

Frontend Software Engineer – Team Lead

01/2025 – 11/2025 | Chicago, IL, USA

Springer Capital

- Led frontend development using **React.js, Next.js, and TypeScript** for enterprise-grade web applications.
- Built reusable, scalable UI components using **Tailwind CSS and modern design systems**.
- Integrated REST & GraphQL APIs to deliver real-time, data-driven features.
- Improved application performance through **code splitting, memoization, and optimization techniques**.
- Ensured accessibility compliance (WCAG) and UI consistency across products.

Social Media Admin (Facebook & LinkedIn)

09/2025 – 11/2025 | Bangalore, India

Paws Pal Connect 

- Managed Facebook and LinkedIn pages to strengthen brand presence and engagement.
- Created, scheduled, and optimized posts to reach wider audiences and maintain consistent activity.
- Monitored page insights and analytics to track performance, identify trends, and adjust campaigns.
- Engaged with followers, responded to messages/comments, and built an active online community.
- Collaborated with the development and marketing teams to align social media campaigns with overall brand strategy.

Flutter App Developer

02/2024 – 06/2024 | Damascus, Syria

Focal X Agency | Damascus, Syria

- Delivered production-ready Flutter features using **clean architecture and modern state management**.
- Implemented **i18n/RTL (Arabic & English)**, dark mode, animations, and responsive layouts.
- Integrated Firebase services and REST APIs with offline support and error handling.
- Set up **CI/CD pipelines** for automated releases and onboarding documentation.

Projects

Paws Pal Connect – All-in-one Pet Care Platform (Flutter, React)

09/2025 – 08/2026

NPT-Solutions (Flutter & React Js)

All You Need app for your Pet

Revonix (Graduation Project) – Artisan marketplace app (Flutter)

10/2024 – 07/2025

Graduation project, A- (Flutter)

Created a user-friendly mobile application that enables users to effortlessly find and connect with the artisans they need with a single tap.

Shein Replica App – E-commerce mobile app (Flutter)

10/2024

Flutter

Developed a mobile application that replicates the shopping experience of Shein, offering users an intuitive interface to browse and purchase fashion items with ease.

Change Volunteering App

05/2024

Semester project, B+ (Flutter)

Developed an intuitive mobile application that streamlines the process of volunteering, allowing users to easily find and participate in voluntary work with a single tap.

My University App – University services app (React Native, Expo)

06/2025 – Present

University app (React Native)

Using Expo Go and material 3 ui

Warehouse App – Inventory management system (Flutter

07/2025

Ware House (Flutter)

Did with a team of friends this app as a practice

Chatly Sectretive chatting <i>Php & NextJs</i> Creating the most secretive Chatting community	01/2026 – Present
